3B FILTERS COVID-19 UPDATE

Here at 3B Filters we have always strived to provide quality, high pressure filtration solutions to fit the needs of our customers. This remains true even during the ongoing global health crisis.

The economic stress is being felt around the world and this note is a reminder that 3B Filters remains open and is ready to help with any opportunities that arise. We have followed CDC and local guidelines to safeguard our facility and employees which allows us to continue to service your requests to the best of our ability.

Just a reminder, our shop is 15,000 square feet and our 30 CNC machines are ready and waiting. In addition, our aftermarket filter element manufacturers are also open and deliveries have not been an issue to date.

Please do not hesitate to contact us as needed and we will provide the usual high quality service and products you have come to know from us.

Stay healthy and safe!
